nLight® Applications Guide

/ nLight Lighting Controls Platform

It's not just smarter. It's easier.

nLight is a sensor-based digital lighting controls solution that offers wired and wireless lighting controls that easily connect luminaires, sensors, and other control devices to create a digital network. The nLight platform of products enables ease in specification, installation, and ownership, making it the go-to digital lighting controls platform for specifiers, contractors, and building owners.

About ASHRAE 90.1

ASHRAE 90.1 is an energy code designed to reduce energy consumption. The ASHRAE 90.1–2016 energy code has specific requirements for lighting controls. The use of advanced lighting controls to synchronize light levels with daylight, occupancy, and multi-level control capability are required in order to be compliant.

About This Guide

Acuity Brands® offers the nLight® ASHRAE 90.1–2016 Applications Guide as a reference of typical nLight layouts that help make code compliance quicker and easier. The Acuity Brands Design Services Team is also available to support engineers and contractors with detailed design, submittal, and installation. For additional information, please contact your Acuity Brands Sales Representative.

About nLight

nLight® is a sensor-based digital lighting controls solution that offers wired and wireless lighting controls that easily connect luminaires, sensors, and other control devices to create one digital lighting controls platform to aid in code compliance, reduce energy, and enable advanced networked capabilities. Ideal for practically any application, small to large, indoor to outdoor, nLight offers lighting controls that scale from one room to an entire floor, from one floor to an entire building, from one building to an entire campus.

The chart below is an overview of the Code Requirements for Common Building Spaces. Please use this information as a guide. For specific ASHRAE code requirements please refer to the ASHRAE 90.1–2016 code.

Control Requirement*		Code Provision	Code Summary*	Space Type								
				Enclosed Office	Open Plan Office	Conference, Meeting, Multipurpose Room	Classroom, Lecture Hall, Training Room	Lobby	Corridor	Restroom	Stairwell	Gymnasium/ Fitness Center
On-Off Control	Local (i.e., Switch) Control	9.4.1.1[a]	There shall be one or more readily accessible manual lighting controls in the space that controls all lighting in the space. Note: Remote locations permitted for reasons of safety or security.	✓	✓	✓	✓	✓	✓	✓	✓	✓
	Manual ON	9.4.1.1[b]	None of the lighting in the space shall be automatically turned on.	✓	✓	✓	✓					✓
	Partial Automatic ON	9.4.1.1[c]	The general lighting shall be allowed to be turned on automatically to 50% of the lighting power.	(or) ✓	(or) ✓	(or) ✓	(or) ✓					(or) ✓
	Full Automatic ON	9.4.1.1	Automatically controlled spaces are allowed to turn on to full.					✓	✓	✓	✓	
	Automatic Partial OFF Via Occupancy Sensor	9.4.1.1[g]	The general lighting power shall be automatically reduced by at least 50% within 20 minutes of all occupants leaving the space. Note: Full Off also complies.					✓	✓		✓	
	Automatic Full OFF Via Occupancy Sensor	9.4.1.1[h]	All lighting shall be automatically shut off within 20 minutes of all occupants leaving the space.	✓	(or) ✓	✓	✓	✓	✓	✓	✓	✓
	Scheduled Shutoff (i.e. Timeclock)	9.4.1.1[i]	All lighting shall be automatically shut off during periods when the space is scheduled to be unoccupied using a time-of-day operated control. Note: A signal from another automatic control device or alarm/security system complies.				✓	✓		✓	✓	
Light Level Control	Bi-Level Lighting Control	9.4.1.1[d]	Controlled lighting shall have at least one control step between 30% and 70%, or continuous dimming, in additional to full on and full off.	✓	✓	✓	✓				✓	✓
	Automatic Daylight Responsive Controls for Sidelighting/ Toplighting	9.4.1.1[e] 9.4.1.1[f]	If the general lighting load is 150W or greater in the primary sidelighted or toplighted areas, or 300W or greater in the primary & secondary sidelighted areas, the general lighting in these areas shall be controlled by multi-step or continuous dimming photocontrols.	✓	✓	✓	✓	✓	✓	✓	✓	✓
Additional Controls	Parking Garage Lighting Power Setback	9.4.1.2[b]	Lighting power of each luminaire shall be automatically reduced by a minimum of 30% when there is no activity detected within a lighting zone for 20 minutes.									
	Automatic Receptacle (i.e. Plug Load Control)	8.4.2	50% of all receptacles, and 25% of branch circuit feeders installed for modular furniture, shall be automatically turned off by an occupant sensor within 20 minutes of all occupants leaving the space. <i>Note: A time-of-day schedule or a signal from another automatic control device or alarm/security system complies.</i>	✓	✓	✓	✓					
Exterior Control	Exterior Lighting Controls	9.4.1.4	9.4.1.4[a] Daylight shutoff 9.4.1.4[b] Facade and Landscape lighting shutoff 9.4.1.4[c] Lighting setback									

*Note: This summary is for general information purposes only and is provided without any warranty as to accuracy, completeness, or otherwise. The user should read the applicable code sections for more complete and detailed descriptions of code requirements and exceptions and should consult with a professional engineering or other competent advisor before making any decision or taking any action based on this summary.

Warehouse/ Storage Area	Parking Area (Garage), Interior	Exterior Lighting

OPERATIONAL DETAILS:

Light Fixtures:

- All fixtures are dimmable
- All fixtures can be controlled together or independently
- Maximum level can be task-tuned to any percentage via programming

Occupancy Control:

- Fixtures must be turned on manually for optional control or configured to come on automatically (to 50%)
- Plug load turns on automatically
- Fixtures and plug load turn off automatically when room becomes vacant

Daylight Control:

- Not required for offices without windows or that have loads <150W in sidelit zones

Manual Control:

- On/off & raise/lower control of fixtures

ADDITIONAL OPTIONS:

- Room can be connected to nLight backbone to enable network control or time schedules
- HVAC control available through system-wide BACnet® interface option on the ECLYPSE® controller
- Wireless fixture embedded control and occupancy/daylighting sensor options available, please see the fixture specification sheet
- For emergency lighting control use a power pack with EREM option or nLight Enabled Fixture with emergency option

Note: Contact your local lighting agent for more information on nLight enabled fixtures.

/ ADDITIONAL OPTIONS:

- Room can be connected to nLight backbone to enable network control or time schedules
- HVAC control available through system-wide BACnet® interface option on the ECLYPSE® controller
- Wireless fixture embedded control and occupancy/daylighting sensor options available, please see the fixture specification sheet
- For emergency lighting control use a power pack with ER/EM option or nLight Enabled Fixture with emergency option

Wireless with nLight Enabled Fixtures

Wireless with 0-10V Dimming Fixtures

Bill of Materials

Symbol	Qty	Product #	Description
	18	See Notes	nLight AIR Enabled Fixture with Sensor Option
	6	See Notes	nLight AIR Enabled Fixture with Sensor and EM Option
	2	rPODBA 2P G2	Battery Powered, 2-Pole, On/Off WallPod

Bill of Materials

Symbol	Qty	Product #	Description
	2	rPP20 D 24V EFP G2	Relay Pack with 0-10V Dimming Output
	2	rPP20 D 24V EM EFP G2	Emergency Relay Pack with 0-10V Dimming Output
	2	rPODBA 2P G2	Battery Powered, 2-Pole, On/Off WallPod
	6	rCMS 6 G2	High Bay Occupancy Sensor

/ OPERATIONAL DETAILS:

Light Fixtures:

- All fixtures are dimmable
- Maximum level can be task tuned to any percentage via programming

Occupancy Control:

- Fixtures automatically go to full bright when occupied
- Fixtures automatically turn off or optionally can be configured to drop to low dim setting when space becomes vacant

Daylight Control:

- Daylight responsive controls lights to full off when adequate daylight present
- Not required for spaces without skylights or that have loads <150W in toplight zones

/ ADDITIONAL OPTIONS:

- Room can be connected to nLight backbone to enable network control or time schedules
- HVAC control available through system-wide BACnet® interface option on the ECLYPSE® controller
- Wireless fixture embedded control and occupancy/daylighting sensor options available, please see the fixture specification sheet
- For emergency lighting control use a power pack with ER/EM option or nLight Enabled Fixture with emergency option

Note: Contact your local lighting agent for more information on nLight enabled fixtures.

	13	See Note	nLight AIR Enabled Canopy Fixture with Sensor Option
	2	See Note	nLight AIR Enabled Canopy Fixture with Sensor and EM Option
	1	nECY	nLight ECLYPSE Network System Controller
	1	nECYD NLTAIR G2	nLight AIR Adapter

OPERATIONAL DETAILS:

Light Fixtures:

- All fixtures are dimmable
- All fixtures can be controlled together or independently
- Maximum level can be task tuned to any percentage via programming

Occupancy Control:

- Fixtures automatically go to full bright when occupied
- Fixtures automatically turn off or optionally can be configured to drop to low dim setting when space becomes vacant

Daylight Control:

- Daylight responsive controls lights to full off when adequate daylight present

Note: Contact your local lighting agent for more information on nLight enabled fixtures.

ADDITIONAL OPTIONS:

- Devices can be connected to nLight backbone to enabled network control or time schedules, including astronomical time schedules for shutoff. GFKX option can be added to nLight ECLYPSE to provide manual override (9.4.4.1[a]).
- Wireless fixture embedded control and occupancy/daylighting sensor options available, please see the fixture specification sheet
- For emergency lighting control use a power pack with ER/EM option or nLight Enabled Fixture with emergency option

Daylight Control:

- Daylight responsive controls lights to full off when adequate daylight present

ADDITIONAL OPTIONS:

- Devices can be connected to nLight backbone to enabled network control or time schedules, including astronomical time schedules for lighting shutoff (9.4.1.4[b]) and lighting setback (9.4.1.4[c]). GFXK option can be added to nLight ECLYPSE to provide manual override (9.4.4.1[a]).
- Wireless fixture embedded control and occupancy/daylighting sensor options available, please see the fixture specification sheet
- For emergency lighting control use a power pack with ER/EM option or nLight Enabled Fixture with emergency option

Note: Contact your local lighting agent for more information on nLight enabled fixtures.

Programmable Time Clock Control:

Although not pictured within each of the individual room design guides, each nLight controlled space can be connected via an nLight backbone to create a networked nLight lighting control system capable of meeting the requirements of ASHRAE 90.1 scheduled shutoff, provision 9.4.1.4[i]. A networked system also enables astronomical time clock control.

Bill of Materials

Symbol	Qty	Product #	Description
	1	nBRG 8 KIT	8-Port Backbone Bridge
	1	nECY MVOLT ENC	nLight ECLYPSE Network System Controller and Optional BMS Interface
	1	nECYD NLTAIR G2	nLight AIR Adapter

Control Requirement	Code Provision	nLight Solution Details	
Local (i.e. Switch) Control	9.4.1.1[a]	nLight WallPod devices provide a user with local control of lighting within an nLight controlled space. WallPods are available in multiple styles – each with varying features and user experiences.	
		Push-Button WallPod	Graphic WallPod*
		nPODMA Series rPODBA Series 	nLight UNITOUCH Touchscreen Wall Switch 
		Traditional tactile buttons and LED user feedback.	Full-color touch screen provides a sophisticated look and feel.
Shut-Off Control	Scheduled Shutoff (i.e. Timedclock) 9.4.1.1[i] 9.4.1.4	Individual nLight control groups (i.e.: rooms) can be easily networked together across an entire building simply by connecting them into a “backbone” made up of one or more nLight bridge devices and/or nLight AIR adapters and an nLight ECLYPSE system controller. The system controller provides programmable time clock functionality for an nLight network as well as interfaces to the SensorView suite of web-based software applications (via an Ethernet LAN / WAN connection).	
		Network System Controller	
		Network System Controller 	
		Additional benefits of installing an nLight backbone include remote status monitoring, system-wide configuration changes, and BMS interface capability, and ADR interface capability.	
Automatic Full OFF Via Occupancy Sensor	9.4.1.1[h]	nLight occupancy sensors utilize 100% digital passive infrared (PIR) detection, come in several mounting styles, and offer multiple coverage pattern options. Additionally, nLight sensors are available with patented Microphonics™ dual technology detection for rooms with obstructions. Configuring for full off vs. partial off control is done with system programming.	
Automatic Partial OFF Via Occupancy Sensor	9.4.1.1[g]	360° Occupancy Sensor	120° WideView Corner Sensor*
		nCM Series rCMS Series rCMSB Series 	nWV Series 
		Surface mounts to ceiling tiles or sheetrock/plaster.	Directly mounts in corner or to ceiling via repositionable ceiling bracket.

*Available with nLight Wired products only.

Note: This summary is for general information purposes only and is provided without any warranty as to accuracy, completeness, or otherwise. The user should read the applicable code sections for more complete and detailed descriptions of code requirements and exceptions and should consult with a professional engineering or other competent advisor before making any decision or taking any action based on this summary.

Control Requirement		Code Provision	nLight Solution Details	
Light Level Control	Bi-Level Lighting Control	9.4.1.1[d]	nLight provides multiple options for controlling continuous dimming luminaires. This allows spaces with several lighting types and technologies to be controlled together and with a common user experience.	
			nLight Enabled Acuity Brands Fixtures	Dimming Relay Packs
				nPP16 Series rPP20 Series 
			Acuity Brands offers a wide variety of LED fixtures with factory installed integrated nLight controls that provide smooth continuous dimming.	nLight dimming relay enable control of any 0-10VDC dimmable LED luminaire.
Automatic Daylight Responsive Controls for Sidelighting/ Toplighting		9.4.1.1[e] 9.4.1.1[f]	nLight offers standalone daylight harvesting sensors as well as occupancy sensors with integrated daylight harvesting. Sensors are available in various housings and provide continuous dimming control of any/all networked nLight enabled fixtures or dimming relay packs, each capable of being its own daylight zone.	
			Ceiling Mount Dimming Photocell	Recessed Mount Dimming Photocell*
			nCM Series rCMS Series rCMSB Series 	nRM Series 
Additional Controls	Automatic Receptacle (i.e. Plug Load) Control	8.4.2	The nLight Plug Load Relay Pack is capable of switching an entire 20A receptacle load. Simply add an occupancy sensor to an nLight Control Zone (room) and the sensor will automatically switch off when the room is vacant.	
			Plug Load / Receptacle Relay Pack	
			 nPP20 PL Series rPP20 Series	

nLight Enabled Fixtures

Acuity Brands offers the industry's broadest portfolio of controls enabled fixtures. Please scan the QR code to see the current nLight enabled fixtures.

nLight Wired Enabled Luminaires

Mobile Apps

Quick and Easy Lighting Configuration and Control In the Palm of Your Hand

nLight Wired

nLight BLE Radio Module

nLight wired uses the nIO BT (Bluetooth® Low Energy radio module) to communicate with the nConfig app to modify the settings and operation of the devices in an nLight zone.

The Bluetooth® word mark and logos are registered trademarks owned by Bluetooth SIG, Inc. and any use of such marks by Acuity Brands Lighting is under license.

nConfig™

The nConfig mobile app is for nLight wired controls startups. It's a quick and easy alternative to SensorView software for smaller projects and simple programming.

nLight AIR

CLAIRITY™ Pro

The CLAIRITY Pro mobile app allows you to start up, configure and troubleshoot nLight AIR wireless controls from a compatible smartphone or tablet.

ASHRAE 90.1–2016 Applications Guide

In addition to being North America's leading manufacturer of indoor and outdoor luminaires, Acuity Brands offers an extensive portfolio of advanced lighting control and building technology solutions for indoor and outdoor applications, from single-room control to fully connected smart building management. Our products, technology, expertise and support include occupancy and photosensors, centralized and distributed systems, panels, luminaire-integrated wired/wireless networked controls and IoT platform services.

Use the Following Sections of the ASHRAE 90.1–2016 Code as Reference:

- Section 8.4.2 — Automatic Receptacle Control
- Section 9.4.1.1[a] — Local Control
- Section 9.4.1.1[b] — Manual On
- Section 9.4.1.1[c] — Partial Automatic On
- Section 9.4.1.1[d] — Bi-Level Lighting Control
- Section 9.4.1.1[e] — Automatic Daylight Responsive Control for Sidelighting
- Section 9.4.1.1[f] — Automatic Daylight Responsive Controls for Toplighting
- Section 9.4.1.1[g] — Automatic Partial Off
- Section 9.4.1.1[h] — Automatic Full Off
- Section 9.4.1.1[i] — Scheduled Shutoff
- Section 9.4.1.2 — Parking Garage Lighting Control
- Section 9.4.1.4 — Exterior Lighting Control

A+ Certified solutions from Acuity Brands help you quickly and confidently select and implement lighting systems that are both compatible and consistent.

For lighting applications, A+ means verified consistent performance, visual appearance and system interoperability of all luminaires and controls within the certified solutions. For lighting professionals it means confidence that all parts of the lighting system will work together and meet common Acuity Brands specifications.

Go to www.acuitybrands.com/solutions/a-certified or contact your local Acuity Brands representative for more information.
