

# Tonight's Performance Dinner & Drinks

High Performance Lighting and Controls Solutions for Today's Dynamic Spaces

**FRESCO TAKES YOU SEAMLESSLY** from day to night, creating the backdrop for a series of memorable experiences. Scenes like a light, bright dining room for the weekday lunch crowd can slowly transform into a warm, intimate setting for evening guests. Special event and holiday scenes only enhance the possibilities.

**Fresco Touchscreen** manages lighting for today's architectural spaces, putting the user confidently in control. Distinguished by its visual appeal and cognitive design, Fresco directly incorporates nLight® devices and controls traditional light sources, LED, RGB and tunable white. Built-in Bluetooth® wireless technology connects with handheld devices. Fresco Touchscreen integrates with building management systems (BMS) through BACnet/IP to trigger scenes and set levels for zones, channels and groups.

**On-screen Lighting Design**  
Create and edit the lighting layout directly from the touchscreen controller.

**nLight® Device Integration**  
Extend the range of control with digital sensors, wall stations and luminaires.

**Fresco Control Network**  
Connect additional Fresco Touchscreens and button stations to extend control throughout the space.

**Universal Lighting Control**  
Manage all dynamic lighting sources from a single touchscreen controller.

**DMX512-A/RDM Control**  
Fine-tune color, color temperature and intensity of high-performance, RGB and tunable white luminaires.

**Wireless Connection**  
Pair handheld devices with the Fresco Touchscreen for seamless control anywhere in the space.

**Scheduling**  
Activate lighting scenes with the built-in astronomic time clock.

**Room Link**  
Link Fresco controllers to share lighting zones and scenes when rooms are combined.

**Third-Party Integration**  
Allow third-party control systems to communicate with the Fresco network.

/ RESTAURANT SEQUENCE OF OPERATION

- Schedule scenes to automatically and smoothly transition throughout the day using **Fresco Touchscreen**
- Wire lighting fixtures and control different lighting technologies from one central location with **Fresco Lighting Management Panel**
- Manually activate pre-programmed scenes from the **Fresco RB Station**
- Control back-of-house lighting from the **nLight button station**
- Wirelessly control lighting from the host stand using the **Fresco mobile app**
- **BACnet/IP** allows building management systems (BMS) to communicate to the Fresco network
- Create and modify events using **on screen scheduling**

*Alternate functionality is available.*
